

WHO Emergency Humanitarian Program Situation Report

Khyber Pakhtunkhwa and FATA

Week 42

Date: October 14- 20, 2012

1. Situation around IDP hosting districts

A: Situation in “Jalozai” IDP camp, Nowshera district

WHO along with health cluster partners and provincial health authorities lead the emergency health response for the displaced IDPs in Jalozai camp and IDPs living in host communities of district Nowshera.

Population:

Till 18th October, 2012 total IDPs families registered are 84,336 families with 388, 065 individuals. Jalozai IDP camp hosts 16, 915 families with 79, 523 individuals. 67, 421 families with 308, 542 individuals are living in off communities.

Alerts and Consultations:

No alert was reported in this week. There were 3,641 consultations provided through health care provider, including acute respiratory infection (25.4% or 925 cases), other acute diarrhea (7.6% or 275 cases), skin infection (2.1% or 76 cases) and confirmed malaria (0.7% or 27 cases).

Coordination:

Health, Nutrition & WASH cluster meetings take place once a week in Jalozai attended by partners from health (Merlin, CAMP, CERD, FATA Health, GiZ, AGEg, IR, CTC, UNICEF), WASH, Nutrition, Food and CCM clusters working in the camp where issues are discussed and decisions are taken on the spot to address any loop holes in the health response for containment and control of disease outbreaks in the camp.

The camp Health, Nutrition and WASH cluster weekly meeting was held on Wednesday 17th October 2012, at J-2 health post of Merlin. The meeting was chaired by WHO. Merlin, CAMP, CERD MCH, BEST, SSD, SEED, AGEg/GIZ, TBCP DHS FATA and HelpAge International attended the meeting.

It was decided that in future the cluster meeting will be conducted fortnightly. Keeping in view the upcoming Eid ul Azha, all the partners were advised to spread messages in the community regarding slaughtering of animals properly and to dispose of the corpses properly. Insecticide residual spray IRS to be conducted by Merlin in camp with the support of WHO. IRS is expected to be started before Eid ul Azha. HelpAge international conducted eye camps with the support of Merlin concluded and the updates shared are total OPD conducted 5019, surgeries 202, medicine 3867, vision glasses 3141, dark glasses 216, follow up of the surgery patients in progress they requested the forum for referrals regarding the left over mobility aids and hearing aids. Their project is ending on 31st October, 2012. AGEg/GIZ updated that as previously discussed with the forum regarding their activities about screening the Khyber IDPs for TB, this activity is expected to be carried after MCH week subject to availability of proper equipment which are in the process of procurement.

Advocacy meeting regarding MCH week conducted at CERD MCH center on 16th October 2012 in which the Shura members were briefed in detail about the activities of MCH and they were requested to inform the community regarding the importance of this week.

Merlin organized training on Essential Health Services Package EHSP from 17th to 19th October 2012 for the department of health staff. WHO facilitated the training. The second batch of this training is from 20th to 23rd October 2012.

WHO Health Promotion Guideline training on 22nd and 23rd October 2012 for the Union Aid staff.

EHE Interventions:

Global Hand Washing Day was celebrated in camp by all WASH partners (SSD, Lasoona, BEST & SEED) in coordination and support of WHO & UNICEF. To highlight the importance of Global Hand Day, different activities were arranged in schools of the camp, these activities included awareness walks, speech competitions, tableaux and skits conveying messages in accordance with the day.

WHO banners and posters were displayed at strategic locations in the camp for creating awareness among IDPs regarding importance of the day, practical demonstrations on proper hand washing techniques were also given to IDPs (specially to children) at different places in the camp throughout. After conducting hygiene sessions, practical demonstrations, proper sensitization and counselling soaps & IEC material was also distributed among the community.

WHO did coordination meetings with WASH partners in the camp and told them to guide their respective health promoters/ social mobilizers that while going in field to IDPs give special emphasis on ways and techniques on how to prevent themselves from mosquitoes.

WHO tested 33 water samples for residual chlorine both at sources and at user ends, 14 samples were found to have residual chlorine within the required limits while for the rest of the samples chlorine dose was adjusted. WHO has so far tested a total of 1101 water samples for residual chlorine, out of which more than 95% of samples have shown residual chlorine and for the rest chlorine dose was adjusted accordingly.

WHO tested 14 samples for microbiological contamination and all samples were found fit for drinking with no contamination. WHO has so far tested a total of 287 samples for microbiological contamination, out of which less than 1% of samples showed contamination at consumers' end, probably due to improper handling, for which chlorine dose was adjusted.

Essential Medicines Interventions:

WHO conducted three monitoring visits to MCH-2, BHU J-4 and BHU CAMP-1. Irrational use of medicines found at J-4 while poor storage practices found at CAMP-1. WHO provided hands on training to a pharmacist and 02 dispensers on rational use of medicines. Remaining medicines from EHK delivered to CAMP Organization for their two health facilities.

B. Togh Sarai" IDP camp, Hangu district

1159 families with 5821 individuals are residing in IDP camp. WHO visited Togh Sarai and made arrangements for celebration of fifth Global Hand Washing day. On 15th October, 2012 Global Hand Washing day was celebrated with participation of all organizations working in the camp and more than 600 school students participated in the event. Debate competition was organized among the students to promote awareness among the camp community. Practical demonstration of proper hand washing was done.

WHO visited BHU Muhammad Khawaja. CERD working in camp is planning to start MCH activities in BHU Muhammad Khawaja for camp IDP's because previously there were many complaints in entertaining camp delivery cases at BHU by governmental staff (especially LHV). In the BHU, availability of proper facilities needs a lot support from all the stakeholders because beside space BHU needs renovation and supply of all equipments and medicines necessary for running a delivery room.

02 out of 18 health facilities reported to WHO via e DEWS. There were 587 consultations provided through partner organization, including acute respiratory infection (20% or 115 cases), other acute diarrhea (10% or 59 cases), also skin infection (4% or 22 cases) and suspected malaria (2.2% or 13 cases).

District authorities and Special Branch police have personally warned WHO to be extra vigilant in visiting the district and keep very limited movement. There are problems in data reporting. WHO in coordination with district health authorities is trying to resolve the issues of data reporting.

C. Situation in Tank district

WHO visited 5 health facilities. WHO conducted routine daily visits to DHQ hospital OPDs and EPI fixed center. WHO held coordination meeting with DEDO- H regarding the follow up of Malaria control measures. WHO shared Measles case investigation reports with DEDO- H.

WHO conducted coordination meeting with M.S DHQ hospital and visit was made to the medicine store. WHO conducted on job training of the in-charge health facilities when following the system generated alerts. CCHF case definition, investigations and protective measures were discussed. WHO held visits to private clinics in the district for discussions on the disease.

D. Situation in D I Khan district

All registered health facilities submitted weekly data through e DEWS to WHO. ARI remained major cause of morbidity representing 16.86% of total consultations. All diarrheal diseases were reported at 9.27%. Other acute diarrhoea was 9.1%. In children <5 years of age, OAD was the main cause of morbidity representing 21.27% 1.

MdM-F, PRCS, SAHARA & SEED are partners for PHC & WASH services in the district.

WHO provided on job refresher trainings on e DEWS & DEWS alerts to staff of health facilities during field visits. The e DEWS network will be expanded and 20 more facilities will be registered.

E. New Durrani” IDP camp, Kurram Agency

Save and Serve providing services of PHC under the project titled Provision of Primary Health Care (PHC) Services with a special focus on women and children health care in Durrani IDPs camp Sadda, Kurram Agency. A total of 806 consultations received through Save and Serve organization. Acute respiratory infection is the highest cause of morbidity (38% or 305 cases) of total consultations; other acute diarrhoea (11% or 88 cases); suspected Malaria (5% or 40 cases); skin infection (11% or 89 cases).

F. Situation in Kohat district

WHO received and responded and 1 Measles case from district Kohat. WHO visited CH Shakkardarra for response of 3 Bloody Diarrhoea, 2 Typhoid Fever cases and it was found that all 3 cases reported from different locations and there was no clustering of cases, same goes for TF cases too reported by the CH. Measles case reported from LMH was investigated and sample collected and sent to NIH for confirmation.

Children B ward in Women & Children hospital Kohat which serves as DTC & ARI center and also providing services as stabilization center for Nutrition is closed temporarily due to unavailability of (HR) nurses. WHO held coordination meetings with EDO-H and MS of the hospital regarding provision of staff for the running of this ward because Children Ward A is over burdened and bed occupancy of the ward is almost 200% again. Some staff was spared from duty roster of the hospital but DoH is planning for establishment of Nursery in the hospital too and it was decided that spared staff would provide services in the Nursery (yet to be started). MS LMH has forwarded request for provision of staff nurses to EDO-H of the District.

WHO provided an X-Ray machine to DHQ hospital, District Kohat and facilitated DoH in putting it on DoH

inventory and shifted the machine to Radiology department at once.

17 out of 43 health facilities in district Kohat provided eDEWS data to WHO.

eDEWS:

KPK eDEWS:

- 320 reports were received reporting 72,815 patient consultations in 14 districts of Khyber Pakhtunkhwa Province. Acute respiratory infections are the highest cause of morbidity (24.1% or 17,565 cases) showing 1% increase in percentage; other acute diarrhoea (8% or 5,833 cases); skin infection (2.5% or 1,833 cases); suspected malaria (2% or 1,210 cases).

FATA eDEWS:

- 35 reports were received reporting 11,647 patient consultations in 2 agencies of FATA. Acute respiratory infections are the highest cause of morbidity (15% or 1,733 cases) showing 1.2% decrease; other acute diarrhoea (9% or 905 cases); skin infection (2% or 234 cases); suspected malaria (7.5% or 873 cases).

Alerts:

- WHO received and responded a total of 54 alerts including 05 outbreaks. Out of these alerts 30 were measles, 01 was AWD, 03 were NNT, 11 were Leishmaniasis, 02 were Dengue Fever, 01 was AFP, 01 was CCHF, 01 was Diphtheria, 01 was Pertusis. 01 was Viral Hemorrhagic Fever and 02 were Enteric Fever. All cases reported were properly investigated and responded by WHO.

Health Promotion Activities:

- WHO held coordination meeting with PDH for facilitation of 3rd batch of Health Promotion training to be held on 22-23 October 2012.
- WHO conducted coordination meeting with Health Coordinator UNHCR for arrangements and nominations for next health promotion training.
- WHO participated as a Health Promotion representative in advocacy meeting for MCH week in Jalozai to be celebrated from 5-10 November 2012.

Assistant to DEWS Coordinator & Liaison DOH:

- WHO attended Global Hand Washing day at LRH Peshawar. WHO emphasized on the role of hand washing and hygienic practices in a hospital setup.
- WHO held meeting with DHIS focal person Dr. Akram Shah. In a meeting WHO highlighted the role and importance of DHIS in the current health information flow.
- WHO held meeting with MS Hayatabad Medical complex. WHO handed over WATSAN supplies to the hospital.

Essential Medicines:

- WHO conducted 12 monitoring and 01 follow up visits to district Mardan, D.I. Khan, Dir Upper, Dir Lower, Bannu, Tank and Charsadda. During these visits gaps regarding irrational use, storage of essential medicines, record keeping and stock outs identified generally. Warehouse construction site visited at D.I. Khan, which is almost completed and the only issues pending are electricity connection and pallets.
- WHO provided a total of 11 hands on training sessions at D.I. Khan, Dir Upper, Charsadda, Bannu and Tank on Dose of TIG, Rational use of medicines, storage of essential medicines, safe disposal of used syringes and LSS.

2 Two days trainings held at D.I. Khan and Shangla on LSS, Pharmaceutical handling and inventory control to PRCS's staff and on RUM & DEWS at DHQH, Shangla respectively. In which 18 participants were trained. At global hand washing day in Kohat and Mardan, training provided on control and preventive measure of communicable diseases.

- WHO conducted 7 coordination meetings with different stakeholders including EDOHs, DSM PPHI, district secretary PRCS, MS WCH and Relief International in which AWD, situation of essential medicines, dose of TIG, pyrexia of unknown origin treated with Antimalarials without slide confirmation and safe disposal of syringes and expired medicines discussed.
- WHO responded 02 Leishmaniasis cases by providing Meglumine Injections at Dir Lower, 1 AWD and 4 Measles alerts was responded at Mardan by providing Vitamin A capsules and paracetamol syrups to Measles alerts.
- WHO delivered 10 TIG delivered to Liaquat Memorial Hospital Kohat as a reserve stock to respond the patients having Diphtheria. F-75= 400 and F-100 delivered to SC DHQH, Charsadda. 4 assorted medicines delivered to Dir lower sufficient for 382 patients approximately. 2 EHKs delivered to The Johannitter which is sufficient for 12000 populations for one month.
- WHO conducted field visit to FATA warehouse, LSS was checked and was found not updated, Supplies from Islamabad warehouse was physically verified and distribution plan was discussed with the store keeper.

WASH:

District Nowshera:

- WHO handed over 10080 hand washing soaps and 20 kg of Chlorine HTH (70%) to PHED and 25000 Aqua tabs to Tehsil Municipal officer TMA Nowshera.
- WHO held coordination meeting with TMA Nowshera to forward nominations of concerned staff in order to fully train them on water quality testing for proper functioning of water quality testing lab.
- WHO visited BHU Taru Jabba and gave on job training to the health facility staff on health care waste management and on maintaining clean and infection free environment in the health facility.

District Peshawar:

- WHO handed over 4 Wegtech Kits to PHED FATA for water quality monitoring. In the ceremony PHED FATA managerial staff including Superintending Engineer kohat circle, sub divisional officers, Executive engineers were present.
- WHO oriented the participants on the use of Wegtech kit as effective tool for monitoring of WHO critical parameters for water quality.
- WHO celebrated Global Hand Washing day in the Lady reading hospital Peshawar. Paramedics' staff from different department participated in the ceremony. WHO guided the participants on the importance of hand hygiene in health care facilities. Administrator LRH was chief Guest at the occasion.

District Charsadda & Swabi:

- WHO held coordination meetings with Executive Engineer PHED and TMO Charsadda. WHO shared progress on completion of district water testing lab project and training preparation for PHED staff on water quality monitoring equipment in district Charsadda. TMA& PHED provided nomination for both these activities. The same human resource will further disseminate these trainings to field staff and will serve as master trainers for such activities in future.
- Global Hand washing Day 15th October, 2012 was immensely observed in close collaboration with District government and line agencies throughout district Charsadda & Swabi with special focus on schools and health facilities. WHO lead the occasion with main events took place in DHQ Hospital, GHS No-1 Charsadda, Bacha khan Medical complex and GMS Yaqoobi Tehsil Yar hussain swabi . Health promotion sessions were organized with students, patients, health care staff, teachers and community members. WHO provided and distributed 7000 Hand washing soap, 50 Hygiene kits and 1000 sets of IEC material on hand washing and hygiene during these activities.
- WHO and PPHI team jointly visited Dengue/Malaria affected village Budgah UC Kabgani District swabi. The situation was found normal with the community was intensively sensitized to strictly follow household preventive measures for early recovery from Dengue and Malaria. WHO team facilitated a community gathering on water safety, hygiene and waste disposal.

- WHO during follow up visit to village Budgah collected 08 water samples from different household water storage pots. The samples were analyzed for microbiological and physiochemical parameters. 26% of the household samples were found microbiologically contaminated with house owners informed about water boiling and use of aqua tabs for improvement.
- WHO visited PHED & TMA tube wells at Turnab, Majoki, Gulabad, MC1, MC2 and TMA office. The chlorinators were found functional with limited stock of sodium hypochlorite for continues operation. TMA & PHED has already requested WHO to replenish the chlorine stock. 14 sample from different distribution points were tested for residual chlorine in which 78% of the samples were found with WHO recommended chlorine doze.
- **District Mardan:**
- WHO effectively celebrated Global hand washing day at four different location in Distt Mardan i.e; DHQ Hospital District Mardan, Government Primary School No: 1 for Boys Bikat Ganj, Children Hospital and Anjuman-i-Sarhadi Yateem Khana (Orphan house) District Mardan. Sessions were conducted with total 505 participants from DoH, Education Departement and students of Orphan house regarding significance of Global Hand washing Day, 720 hand washing soaps and IEC materials were distributed in GHD activities.
- WHO held coordination meeting with XEN PHED Buner on 17th Oct 2012, 02 persons will be nominated from PHED Buner, to whom WHO will conduct detail training on use of Wagtech water testing kit on 23-24 Oct 2012.
- In coordination meeting with EPI coordinator on 18th Oct 2012 WHO provided IEC material of different topics for their free health post in BHU Mohib Banda.
- WHO conducted routine monitoring visits to DHQ Hospital, Mardan Medical Complex, BHU Koidinaka, BHU Kati Garhi, BHU Babuzai, CD Babuzai, CD Daga Piran and CD Kass koroona. During visits EH assessment of the health facilities were carried out with on job training of 20 health staff on HCWM and alert/outbreaks response focusing AWD, health and hygiene.
- WHO in response to suspected AWD alerts and monitoring visits to health facilities collected a total of 8 water samples for bacteriological tests at source and consumer level; hygiene kits, antiseptic soaps and Pure sachet were provided to the affected families with detailed sessions to family elders.
- WHO distributed 731 dettol soap, 480 Pur sachets, 600 Aquatabs, 150 IEC materials, 27 books on water disinfection, 30 hand sanitizers and 4 hygiene kits during monitoring visits and AWD/ measles alert response in district Mardan.
- **District Swat & Shangla:**
- WHO investigated and responded 4 measles, 1diphtheria, 1 Pertussis and 1 leishmania case. During response the community was made aware of the importance of vaccination and hygiene practices total number of 70 community members was educated.
- WHO conducted coordination meeting with Malteser International on 16th October 2012 in order to discuss about the trainings for health staff of district Shangla.
- WHO imparted two days training for health staff of district Shangla on 18th and 19th October 2012 in DHQ Alpuri. Total numbers of participants were 22 trained. The training was organized by Malteser International and facilitated by WHO.
- **District Haripur:**
- WHO investigated & responded to diseases Alerts. Dengue Fever outbreak at Julian, UC Tofkian, VHF alert at Kohala Bala, UC Barkot and 2 Enteric Fever at Afghan Refugee camp 15 and dheenda were promptly responded by WHO teams in the district Haripur.
- WHO raised awareness in the community regarding mosquito control and early referral of hemorrhagic cases to the DHQ. IRS was carried out in the 100 meters radius around the patient's house. Bed nets provided for the family. LHWs were also asked to identify cases of disease to the HF's for further reporting. Health and hygiene session was conducted for the affected families. Soaps and aqua tabs were distributed among the families. EDO H was informed of the cases.
- WHO provided 20 antiseptic soaps, 3000 Aqua tabs 5kg HTH 70% and 10 IEC materials of different subject to community during alert investigation and response.
- WHO collected a total of 10 water samples for bacteriological analyses during alert investigation and health facility monitoring, 70 % tested water samples were found with bacteriological contamination.
- WHO provided a non formal training to PHED Abbottabad employees on October 18, 2012 for capacity

building on water quality monitoring and handed over 5 kg HTH 70% for disinfection of overhead tanks and chlorination.

• **District Lower Dir:**

- Executive SDM, NEWS Reporters, WHO, Supritandant police, Police, prisoner Children, princiapal, student and Teachers of Heera school and MSF Belgium participated in hand washing day in Madrasa Maariful Uloom Al sharia Timargara, Hira Schools, Central Jail Timargara and DHQ Hospital Timargara (covered by MSf) for Global Hand Washing day.
- WHO provided 2376 soaps and 48 hygiene kits to Timargara Heera Schools, MSF Belgium DHQ hospital, Madarasa Maariful Uloom Al sharia Timargara and Central Jail Timargara for Global hand washing Day. 40 laundry soaps were provided to Madrasa Maariful Uloom Al sharia Timargara. 15 ITNs and 72 soaps were provided in C-leishmaniasis response
- WHO responded 4 measles alerts from village Toora Tiga, UC Khongi, Shawa Khat, Ganderai, UC Sadbar Kalay Dir lower, village zaiyarat Korona, Derakai UC Salarzai, Village chorai, Arang nearby tohiabad Bajaur Agency. Health education session conducted with the 57 family members and community, patient isolated, EDO-H & EPI Coordinator were informed.
- WHO responded C-Leishmaniasis cases reported from Village Gullar, Shontala, UC and Tehsil Samarbagh, Dir Lower, Village Shahi Tangi, Tehsil Khar, Bajaur Agency, Village Kun Kass Maskarai and UC Nihagdarra, Tehsil Wari, Dir Upper. ITN's and 72 Antiseptic Soaps were distributed in the affected patients. LHW's were informed and requested for identification of new cases in their catchments areas. RBM focal person was informed and requested for vector control interventions in the affected areas. Health & Hygiene session was conducted with family members and community elders.
- **District Kohat & Hangu:**
- WHO in collaboration with partners organizations organized and celebrated the fifth Global Hand washing Day 15th Oct, 2012 at IDPs camp Togh saray Hangu. Almost all staff of partner organizations and above 600 students participated in the events.
- WHO received and responded 4 Measles cases reported from LMH hospital in last week. Health and hygiene session done with the affected family of the patient and advised for keeping the sick child from playing with other children in the neighborhood and also washing the clothes of the diseased child thoroughly after use and keeping them in open to sunlight before next use.
- WHO distributed 864 antibacterial soaps, 50 Hygiene kits, 50 jerry canes, 1,000 posters (IEC materials) during Global hand washing Day events at IDPs camp Togh Sarai Hangu.

District level coordination & monitoring:

Haripur: WHO visited 06 health facilities (DHQ DHQ, BHU Sarai Saleh, BHU Shah Muhammad, BHU STC4, RHC Halli, BHU Dingi). WHO conducted CCHF prevention and contingency coordination meeting: Chaired by DCO Haripur. Following decisions were taken; Implementation of Section 144 prohibiting sales and exhibition of live stock in the city area, Livestock markets were identified and decided that live stock will only be traded in these identified places, Any livestock displayed or traded outside these premises will be confiscated, Veterinary staff will be present at these identified places to monitor livestock, Check points were established where livestock herds will be sprayed before entering city and these markets, Media message on safe butchering practices was communicated to local news papers, Butchers were advised to observe safe butchering practices and to handle animal skin with care, Use of gloves and covered boots was advocated, TMA will ensure early collection and disposal of animal waste, District government will release fund to fill the gaps in purchase of chemicals for spraying, WHO and DoH will provide technical and logistic support and ensure surveillance of suspected CCHF cases, Doctors will be trained on CCHF case management, Anti virals were provided to DoH, Isolation ward will be established if suspected CCHF cases are admitted in DHQ. ARI 25% with increase of 0% compared to previous week remained the major cause of morbidity both in Hosting and Afghan refugee population in Haripur followed by diarrhoea 7% with 1% decrease compared to previous week and scabies 2% with 1% decrease in its proportional morbidity. WHO received and responded 09 alerts.

Mardan: WHO conducted coordination meeting with DSM PPHI in his office. In a meeting weekly eDEWS

reporting issue was discussed with DSM and official letters has been issued to all health facilities In-charge for regular and timely reporting in future to WHO. PPHI requested WHO to provide hand washing soap, Pure sachets and Aqua tabs for BHUs in Distt Mardan; the requested EH supplies will be provided soon. DOH Mardan has planned a free medical camp on 19th October 2012 in UC Muhib Banda in response to Positive Polio case, EPI Coordinator district Mardan requested WHO for support by providing IEC material for their camp. WHO provided IEC material of different topics for their free medical camp at UC Muhib Banda. WHO conducted routine monitoring visits to DHQ Hospital, Mardan Medical Complex, BHU Kodinaka, Kati Ghari, Babuzai, CD Babuzai, Daga Piran and CD Kass koroona. During visits EH assessment of the health facilities were carried out with on job training of 20 health staff on HCWM and alert/outbreaks response focusing AWD, health and hygiene.. NID was conducted in district Mardan from 15th to 17th October 2012, WHO carried out supervision and monitoring visits to different areas during three days of NIDs. WHO received and responded a total of 4 alerts 2 suspected Measles, 1 suspected AWD and 1 Leishmaniasis alert. All reported alerts were jointly responded with DoH and PPHI, during response all the required interventions were carried out. In response to Measles alerts, EPI team was requested for outreach vaccination in the areas, and they vaccinated 50 less than five years children for all antigens.

Lower Dir & Upper: Upper Dir: WHO conducted coordination meeting with SDM, NEWS Reporters, EDO Education, Focal person Dewes, Supridendant police, Police, princiapal Heera School, MSF Belgium, Moutazim Madrasa Maariful Uloom Al sharia Timargara, MS DHQ, Focal person DEWS, National program Dir lower/upper, EDO health Dir lower/upper For alerts/outbreak response and other field activities. WHO actively participated in NID compaign Dir lower. WHO responded 4 measles outbreak from village Toora Tiga, UC Khongi, Shawa Khat, Ganderai, UC Sadbar Kalay Dir lower, village zaiyarat Korona, Derakai UC Salarzai, Village chorai, Arang nearby tohiabad Bajaur Agency. WHO responded C-leishminiasis cases reported from Village Gullar, Shontala, UC and Tehsil Samarbagh, Dir Lower, Village Shahi Tangi, Tehsil Khar, Bajaur Agency', Village Kun Kass Maskarai, UC Nihagdarra, Tehsil Wari, Dir Upper. WHO visited DHQ Timargra, BHU Dislore Dir Upper, TB Center, BHU AF Timar Camp, Measles ward Timargara, THQ Smarbagh, RHC Munda.

Charsadda: WHO visited BHU Ibrahimzai, DHQ hospital, RHC Sherpao, THQ Tangi registers checked and on job orientation of the facility incharges regarding DEWS was done. 44 health facilities reported EDEWS data to WHO.

Swabi: 37 health facilities reported EDEWS reports to WHO. WHO conducted monitoring visits in SNID on 15 to 17th October 2012. WHO conducted monitoring visit to Stabilization centre BMC & F-100 milk with limited shelf life was observed. WHO Visited to DHQ and BMC Swabi Hospital. MS DHQ also requested for Cholera Kit. WHO conducted Joint visits to different health facilities with PPHI. WHO received and responded 3 suspected measles cases. WHO responded 04 system generated alerts.

Peshawar: WHO conducted coordination meeting with EDO Health. WHO visited 06 health facilities for EDEWS analysis and alerts investigation.

Swat: WHO received and responded 11 alerts. WHO conducted 05 Monitoring visits to Saidu Group of Teaching Hospital, BHU Miandam and BHU Dherai. WHO participated in the October NID. WHO held coordination meetings with EDO Health and Coordinator EPI. WHO conducted meetings with the skin specialists and pathologist to discuss the Leishmaniasis cases in Swat. WHO held meeting with DSM PPHI. In a meeting the increase number of dog bite cases was discussed. The issue will be discussed with the DCO and military authorities by PPHI and WHO jointly. Two days training for Health Staff of District Shangla was imparted on 18th and 19th October 2012 in DHQ Alpuri. Total number of participants were 22 and following topics were covered in the training were Water Treatment Methods in emergencies, Rational use of Drugs, DEWS, AWD case management and treatment. The training was organized by Malteser International and facilitated by WHO.

Manshera: WHO received and responded a total of four alerts, three for suspected cases of Measles and one for suspected Dengue Fever from DHQ Hospital this week, All alerts responded on time, 3 suspected cases of CCHF from Oghi Manshera reported by AMC Abbottabad and responded by WHO. Total 3 cases of Measles detected

during alerts response from field, and a suspected case of Dengue Fever became positive from RDT in DHQ hospital while results waiting from NIH. Decrease in reported cases of Diarrhoea and increase of ARI cases from DEWS reporting sites as compared to previous weeks. Measles cases still reported from different parts of Manshera. WHO actively participated in monitoring of NID and evening meetings attended and feedback of supervision given. WHO conducted market survey and 103 children assessed for finger marking, report of survey shared. WHO conducted monitoring visit to DHQ Hospital, BHU Kotli Bala, BHU Dharyal, BHU Bherkund, CD Khaki and RHC Shinkari for alert response and disease surveillance.

Bunir: WHO responded 4 system generated alerts. WHO received and responded 3 alerts of suspected measles and 1 alert of suspected AWD. WHO visited a total of 07 health facilities. Health staff briefed about eDEWS, case definitions of different infectious diseases under surveillance, special emphasis given on AWD and dengue surveillance, alert reporting, and timely submission of weekly reports. WHO held meeting with EPI coordinator and DSV regarding measles cases in various regions.

Malakand: WHO conducted coordination meeting with MS-DHQ Batkhela regarding Category B false alerts. WHO held coordination meeting with EDO-H regarding CCHF awareness campaign in the district. WHO conducted monitoring visits to BHU Shingrai, BHU Ashakay, BHU Mura baand, CD Badraga and DHQ Batkhela visited. Data tallied with OPD registers of these facilities. Weekly data submitted by all 25 targeted health facilities (in a total of 41 facilities). WHO received and responded 03 Measles alerts. WHO responded 04 system generated alerts 1 of bloody diarrhoea and 3 of typhoid fever. None of those was a confirmed alert.

Khyber Agency: WHO received and responded three alerts AFP, Measles and Leishmaniasis. The AFP case was responded by collection of stool sample and sent to NIH. The measles alert was responded by mass measles vaccination. The Leishmaniasis case was responded by Provision Injection Glucantime. WHO responded two system generated alerts, all of which were false alerts. WHO participation in NID Polio campaign. WHO held coordination meetings with Agency Surgeon, Political Administration, MS DHQ Hospital Landikotal, FSMO and PPHI. WHO conducted monitoring visit to AHQ Landikotal, CD Pindi Lalma, CH Jamrud, and BHU Mian Morcha and CH Lowara Mina.

Mohmand: WHO conducted monitoring visits to 6 health facilities AHQ Ghalanai, RHC Yakaghund, BHU Babi khel, BHU Lakaro, BHU Momadgat & BHU Michni. WHO held coordination meeting with Agency Surgeon regarding Global hand washing day. WHO celebrated global hand washing day in government middle school & primary school in Ghalani, health & hygiene session conducted, Detol Soap & Aqua sachet distributed among 300 students. WHO participated in Polio campaign from 15th to 17th October. WHO responded to system generated alerts for bloody diarrhoea & typhoid fever. WHO provided on job training to BHU Michni staff on alert & outbreak reporting & response.

Bajaur Agency: 20 out of 24 sentinel sites submitted their eDEWS to WHO. WHO received and responded 9 alerts i.e. 2 of Cutaneous Leishmaniasis, 3 of NNT while 4 of Suspected Measles. WHO visited 3 health facilities, feedback shared with Agency Surgeon and EPI Coordinator. Polio campaign started from 15th Oct, 12 WHO monitored in different parts of the agency and daily feedback was shared with all the team in evening meetings. WHO held coordination meeting with Agency Surgeon regarding situation of Cutaneous Leishmaniasis and commencement of oral therapy for complicated multiple lesion patients where intralesional therapy is difficult to be followed. Agency Surgeon requested for the arrangement of a training session for all the concerned MTs & doctors. WHO conducted coordination meeting with newly appointed EPI Coordinator regarding overall EPI situation and redistribution of EPI staff to different health facilities to cater the worse EPI status at some facilities. WHO participated in a general meeting of all EPI staff which was called by Agency Surgeon and EPI Coordinator.
