

# PESHWAR (TOWN-II) TEHSIL (PESHAWAR DISTRICT)

## IVAP-II SAMPLE DATA – Preliminary

196 IDP families (a total of 1,216 individuals) residing in Peshawar (Town-II) tehsil were randomly selected from the list of 9,005 families identified in IVAP-I. They were surveyed with the IVAP-II multi-cluster questionnaire (which all clusters had previously fed questions into) in April 2012. The results are generalized across the tehsil and presented below. All data relates to conditions in displacement and should be used to inform humanitarian assistance provided to these families. Further information is available in the database found on the IVAP website ([www.ivap.org.pk](http://www.ivap.org.pk)) or through contacting the IVAP team ([irum.jamshed@pakistan.theirc.org](mailto:irum.jamshed@pakistan.theirc.org)).
